

WhiffUSATM introduces the **Whiff!TM Complete Odor Elimination & Vehicle Hygiene System** as the world's first and only on-demand delivery and dispensing system for aqueous chlorine dioxide for use in the remediation of cars, buses, SUV's & boats. Chlorine dioxide is known world-wide as a premium deodorizer which removes the world's toughest odors making vehicle interiors and systems hygienically clean and odor free. Because chlorine dioxide is so highly reactive, it is critical to produce it just before it is needed. It is also critical that it is made to exact standards for use when and where you need it. The **Whiff!TM System** creates fresh and powerful pH neutral chlorine dioxide using a safe and patented reduction reaction and dispenses directly into the ReliOxTM High Performance Cold Fogger (included). Now you can quickly remediate large surfaces, seats, floors and systems with the safest and most effective product ever available.

Use of the system is as easy as ABC with each component clearly marked and sealed to ensure no user interference. Safety is assured and controlled as the **Whiff!TM System** is engineered to dispense a solution concentration specific for use on interior vehicle surfaces. Plug the components together and start Whiffing!.

The **Whiff!TM System** adheres to Green Chemistry principles and all its components are recyclable or reusable. **Whiff!TM Complete Odor Elimination & Vehicle Hygiene System** is the smart product to choose for all your vehicle odor and hygiene problems.

**Part A passes through Part B which
creates Part C**

All three are non-toxic and safe
